

2024 IEEE EPS Malaysia: Jan to Dec Activities Update

Dec 2024

Thank You – From Chair, Dr Eu Poh Leng

2024 Achievements

- Remarkably active year with 41 activities successfully conducted, focusing on the following key mission:
 - Build Semiconductor Packaging talent pool for Semiconductor growth in Malaysia to support National Semiconductor Strategy, through Advanced Packaging training for universities, technical talks, career talks, WIE talks, webinars, industry visits, cross-country universities collaborations, etc.
 - Key success - the 40th International Electronics Manufacturing Technology Conference in Penang (IEMT 2024) – 730 participants attended!
- Special thanks to the great support from IEEE HQ, EPS HQ, Region 10 HQ, industry and academia, 2024 EPS Malaysia Exco & Committee, 2024 IEMT Committee, and all EPS members
- **THANK YOU** for the commitment and contribution to the success of IEEE EPS Malaysia Chapter!

IEEE EPS Malaysia

2024 Jan to Dec Activities Update
