Collaboration Partner: **BRITISH COUNCIL**, **IEM**, **IEEE**, **IEEE ELECTRONICS PACKAGING SOCIETY**, **TAM**

IET Malaysia Northern Region
Get Together

IET CPD Hours : 4 hrs

Professional Workshop Day with British Council

Join us for a talk on 'Effective Communications for Engineers / Professionals in the Era of AI'. Learn about the importance of 'Soft' (Human-Power) skills, which help us keep our jobs and get promoted. These skills are identified within the context of relationship building and communication through Visual, Vocal and Verbal skills. The rich and relevant offering of courses that we at the British Council have under Written and Spoken Professional Skills will be shared. Participants will be invited to carry out one activity from our Technical Writing course. The learning objective is to understand your readers and describe technical processes and jargon to non-technical people so that they can make better informed decisions.

📅 07 Dec 2024 (Sat)
🕒 9 AM - 1 PM
📍 Eastern & Oriental Hotel, Penang
